Property Description

Costa Rica is a country of enthralling natural beauty, the sense of losing oneself in tropical delight and establishing a life where wellness and tranquility are at the forefront or priorities. Some come for a week and never leave? If there's one area in Costa Rica that perfectly embodies this feeling, it's Manuel Antonio, a place where the conveniences of a tourist hotspot and the transportive aura of an oasis come hand-in-hand. Home of the National Park with more than 7.5 square miles of jungle that runs down to the pacific ocean beaches it is hard to find another place in the world where you can get both. About this listing: Ground up rebuilt and expanded in 2021, Jungle Luxury Villa sits right at the heart of Manuel Antonio, exalting the essence of the location with each one of its features. Just outside the hustle and bustle, this home offers utmost privacy and calmness, but still within an easy walk or 5-minute drive to all the highly-rated restaurants, lively bars and paradisiacal beaches, this property truly offers the best of both worlds.
