Property Description

A Vast Sanctuary of Water, Views and Land Finca Mano de Tigre is a rare luxury farm for sale in Uvita. Located in La Guagara at 750–900 m elevation, the 52-hectare estate features organically managed pastures, secondary forest, creeks, and stunning ocean-view platforms. It offers private water resources, a private waterfall, and multiple sites ready for thoughtful development. The farm divides into two natural sectors. Around 35 hectares are dedicated to cattle and horse breeding, with gently rolling pastures, living fences, and natural water sources—ideal for livestock or equine projects. This area includes approximately 20 natural building sites. The remaining 16 hectares are conservation land, with over 25 years of forest regeneration forming about 14 ocean-view platforms. These areas provide privacy, wildlife encounters, and long-term environmental protection, supported by neighboring conservation-focused properties.
