Property Description

The business comes with a variety of buildings that include a restaurant, yoga/meditation platform, pool, and cabins ranging from a studio to two-bedrooms. All of the structures are sprinkled throughout the property providing privacy between guests. Each cabina comes complete with private bathroom, closet, mini fridge, and coffee maker as well as extra linens. Additionally, the studio has a garden view balcony. The entire property runs on city electric and has the option of using city water. Currently, the city water is only being used as a backup to the natural spring on site. When you purchase this property you are given a concession to that natural spring. Satellite is available on property and internet is available through a cellular card. The property in its entirety has been well maintained for 15 years, the most recent upgrade was the new roof over the restaurant. There is also a small crew of people dedicated to maintaining the landscape.
