Property Description

Casa Flor represents one of the strongest values for an ocean view home with pool in the coveted Escaleras area. The property has great up-side given its fantastic ocean view, great privacy, and the main house with a guest house. The main house is built of solid concrete masonry with many local hardwood touches. The upstairs features a great room, bedroom, full bath, and an ocean view terrace along the front of the residence. The lower level has a second living area (easily convertible into a third bedroom), another bedroom, and another full bathroom. This level has more outdoor living space on the west-facing (ocean view) side and also includes a bbq area with a wet bar and outdoor kitchen type of setup. Just a few steps away, the pool is surrounded by mature tropical vegetation and is totally private. The property is fenced, secured and features a security gate. At the top/entry-level is a generous parking area with a covered stall.
