Property Description

Villa Pacifica is a curated residence, inspired by architects Motta & Vioto, to seamlessly blend the luxury estate with the warm, tropical backdrop of One Hacienda Pinilla. This unique residence, developed in collaboration with Motta & Vioto and Grupo Roble, provides the buyer with the unique opportunity to secure their legacy home, while allowing the design, permitting and construction to the experts. The home is thoughtfully laid out across two levels, with a total construction of approximately 572 m², integrating indoor and outdoor living through a floor plan that prioritizes natural light and connection to the surrounding landscape. The architectural language is grounded in carefully selected materials such as natural wood, stone, and neutral finishes, creating a residence that feels both contemporary and warm. Interior spaces open seamlessly toward the terrace and a 40 m² pool, establishing a central social core that extends naturally into the outdoor living areas, making it a prime example of Costa Rica luxury investment opportunities.
